

Custom Panels Created by Weiss Called for Special Coloring and Finishes

***Weiss Sheet Metal has
the capabilities to handle
fabricating intricate panel
systems for interior or
exterior applications!***

This project called for Weiss to manufacture and supply 5 stories of accent panels which visually divided the curtain wall.

Weiss worked closely with the curtainwall fabricator, who took the painted panel parts then insulated and assembled them for easy job site installation.

1/8" aluminum sheet was formed into the desired panels before custom gray paint was applied.

Whether your project calls for large scale exterior panel systems or fine interior panels used for residential kitchens, Weiss' custom metal working capabilities and skilled craftsmen are your solution.
